

PLAY-A-WONDER!

He is called "Alien" by many SWOS players, he is the best AmigaSWOS player at the moment! Our first interview was with the first ranked player on the world...

"My mom didn't allow me to get An Amiga because she disliked computer - games"

E: When and how did you begin to play SWOS ?
Playa: My first computer was a Schneider PC in the year 1988. My mom didn't allow me to get an Amiga, because she disliked computer - games. That's why I never possessed one until last summer (Sensible Days 2005 winning-price). 1990 my best friend got an Amiga 500 and as I was at his home most of the time we played a lot of games (if the weather was bad). 1991 we found out that Kick Off had a follower with an even more addictive gameplay: Sensible Soccer!! We were in a "Sensi-Fever". We bought the upcoming followers, of course. In the beginning of 1994 I was reading a magazine about computer games. There was an article about a new Sensi-version which was SWOS. I had big pleasant antici pation and as it was available for PC I bought it immedeatly. Many nights you could find me in front of my PC playing this incredible game. Most fun were matches against my friend which were at a high standard. We developed many tactics (!!!) and really got into SWOS. We appreciated the ECE version which was even better. In the year 1996 I went to England for half a year in terms of student exchange. As I was on a shopping tour through Northampton I discovered a double-CD with SWOS ECE and the Upgrade for 96/97! I was thrilled. The price was ridiculous, 9 £ ! This was a dumping-prize for a Sensi Freak! This Double-CD is still my property and I am proud of it. (Übernommen von ss.de, leicht abgeändert)

E: How many hours of a day do you spend for SWOS and sensiblesoccer.de?

P: I have a busy schedule for University but i manage to spend 2 hours of the day (Monday until Thursday) for SWOS and internet business (ss.de). The weekends are completely SWOS-free as they belong to my girl (soon wife), family and friends.

"I think my biggest advantage is that i am very variable in my gaming style"

E: What does SWOS mean to you?

P: This is very difficult to explain as it is nearly philosophical. I think SWOS is somehow a bit like someone's life. Always a learning process. Even if you think you have seen everything - BOOM, you get disabused :-)! In playing it you always have to work on yourself. My friend "Jonty Rhodes" probably explains it the best way : SWOS isn't just a game, it's a way of life... Another beautiful thing is that it unites people from all over the world. And all SWOS-players have love for each other in the first place as they know they are all part of something special. True SWOS- players understand each other on a dimension I have never fully comprehended. It's just the way it is...

E: You are on the top now with over 2900pts...What do you do different? (Are you really an "alien" or have you got some secrets:)

P: First of all I am no alien. I think my biggest advantage is that i am very variable in my gaming style. I can score many different goals and therefore I also know how to defend them. Many players are able to score only one or two sort of goals. But I don't like it and I think that is not the spirit of this game. Be yourself, and be creative. Another reason maybe is my huge experience of having played many years now and having participated in Offline-Tournaments. And to be up to date, I have a talent for creating tactics (espeacially to stop boring standard-goals). My latest winning series has a lot to do with my tactic. And as I said before, be creative... :-)

" I do not like it when people think they are the best in SWOS because there is nobody on this planet who can say this"

"Never ever say you are the best before having played one match of online-SWOS. If I hear this I will kill you on the pitch...*jokingly* Well, just be yourself and have fun. Enjoy yourself, be creative and respect each other"

E: Do you always do your way when you play online? I mean, are you more concentrated if you play someone, who's really good?

P: Basicly I want to win any match. No matter who is my opponent. And of course, I always play my style of SWOS. I never switch my tactic because of an opponent. I am favorite and the opponent has to look what I do, not the other way round... But you are a bit right, I am more concentrated when playing against the stars of ss.de like Redhair, Dzem or Jonty!

"My all - time favorite player I love to communicate with like-minded people who is Divin-Codino. share my pleasure and joy! And I have met so many An Italian kid, very nice and gentle people here. Some of them I really a genius" consider as friends without having ever seen them (especially a guy from Portugal. You know who you are!). Thanks to SWOS. I don't like it when people think they are the best in SWOS because there is nobody on this planet who can say this. Even daring to say this is a shame to me. If people ask me I always say that I am maybe one of the best, but not THE best. And I dislike players who always search for excuses after having lost a match. Come on guys, it's just a game. In-game I don't like uncreative players that always score the same way. Well, not that I don't respect them as good players. I just don't like it! No disrespect!

E: Who is your favourite player in Amiga SWOS online?

P: I have some favorite players: Dzem for example, a really creative player, truely understanding the spirit of this game. And the greatest talent for curious goals I have seen so far. I am always looking forward to play against him. Once he beat me and even got up from my chair

and bowed down. Just beautiful... Redhair is always very impressive. Defending and heading is not from this world. Outta space... My all - time favorite player is Divin - Codino. An Italian kid, really a genius. I do not even know how to describe him. In my opinion the best ever. He is the only one who is allowed

to say that. Simply the best. Sadly that we haven't heard from him since last June. I hope he is alright. End... Thank you for giving time, Playa...

WHAT IS GOING ON? How shall we call him? Carminets or Pianap!!!

Gladiator and Steve Martin had been banned because they had used double account. Last week it has been found out that Carminets (ITA) has created also double account. He has been taken out from Amiga Super League (And Pianap from 2nd League). He couldn't prove that he didn't do that, so he is now banned from ooo and league games for two months.

What did other players say:

- "Bah what a shame... cheating is growing up... why?" Synk (POR)
- "Why did he do that he doesnt need it he is a good player" Likjetaj (CRO)
- "it is very sad as i liked to play vs carmine and i found him quite sympathetic" Stromberg (GER)
- "An indescribably dissapointment for our whole community!!! An the bad thing is: There are More in our community, and we just don't know" Teutopeus (GER)
- "It is a shame that this happens. Everybody wants to be the best, that's just life. But these people are only cheating themselves. All we can do is make sure we are fair and friendly to all, and hope that others follow our example" Jonty Rhodes (GBR)
- "I dont know how but i wish he proves his innocence Carminette ,I hope u haven't done that rubbish thing..." Enbino (TUR)
