

THANK YOU ALL !
 For your praises and support after Amiga SWOS' first edition, we want to thank you friends. We are powered by your support. We hope you will enjoy also this edition. Interview of the month has been made by Synk...

3 New National Leagues
 SWOS Community is growing up on sensiblesoccer.de!
 3 new national leagues have been added including Czech, Croatian and Italian. The webpage has now 6 international leagues and 11 national leagues from 8 countries.

CAN POLICE STOP HIM ?

This photo has been taken by police radar, because he has driven faster than allowed.

JIGGAPLAYA is active online SWOS player since about two months but he was fast to hold his first cup in his first online tournament in feb. He is also fast when he drives!

"I started to play sensible soccer with my elder brother on Amiga about ten years ago. as I started to beat him, he forbid me to play the game on his Amiga. So I started to play Sensible Soccer on SNES with my friends which all were crazy like me. We played day and night without interruption. Though we all were from Berlin we were an international mixture (Nigeria, Italy, Poland, Turkey, Germany, and so on). When I was 17, I had to focus more on school and my basketball club, but I always missed Sensible".

Synk: You were chosen for this month because of your good exhibition in the Winner & Sinner Cup that you won in the condition of a newcomer! How do you feel about that?

Jiggaplaya: It was only 8 weeks ago that I found this great SWOS page. On 3rd day someone asked me to play Winner & Sinner cup. I was quiet sure I would be the last of my group, but I had the chance to get some experience. The rest was like crazy and fantastic dream. I won round by round without knowing why. Against the legendary Jonty Rhodes, Redhair and Fokaslask simply was very lucky. Against Redhair I won with penalty shooting. It was like Germany in World Cup 2002 but the difference was I didn't have Oliver Kahn as keeper in the final.

S: Can you say to us how many time you spend playing swos online/offline per day?

J: Well, since I found this SWOS community I usually spend about six hours per day or night, and I hope there will be enough time to improve my gameplay further.

S: We can also see you are currently in top 10 amiga 000 players! Why you think you reached the top so quickly?

J: I really don't know. I play my games 000 or league games always with much respect for my opponents. My aim is to have fun and to improve my game.

S: Who is your favourite player in amiga swos?

J: There are so many great players here. Surely Playaveli is the top player. I only say the "Alien". I learned a lot from players like Ottoman, Jonty Rhodes, Lucaa, Lemming and all of them are great, fair players with impressive styles. Personally thanks to Lemming. He has helped me to learn the rules of the SWOS community. We always have great friendly games. I call him the sniper.

Who is Jiggaplaya ?

Name : Jan Oppert
Birth : 10th March, 1982. Berlin, Germany
School : Technical University of Cottbus Town Regional Planing
Height : 187cm
Weight : 92kg
Hobbies : Basketball, soccer, tabletennis, partys and since about 8 weeks sensible online.

S: What can you say about our community? Were u received well? Any tip for all newcomers to have your success?

J: The community is very open and friendly. The guys from all countries seem to have the same sense of fun and fairplay. I felt welcome. Newcomers should know that it is normal to lose the first 50 games. It doesn't matter. You need this experience. That's the only way. No matter if you win or lose, always be cool. Keep your nerves and than you will have fun.

S: Ok thanks a lot jigga! you have some last words for our Swos Freaks?

J: I think this webpage is a brilliant idea. We should tell this to all friends who like this game. So the community will become bigger and bigger. END

PLAYAVELI SWEEPS THE LEAGUES

Next double from Playa... He has won Super League and German Championship. Playaveli played 12 games in each league and won all of his matches. He got his 6th Super League and 5th German Championship title. In Danish League Djowger celebrates his 2nd title one after the other. Szcala has surprisingly won his first title in Ekstraklassa (Poland) ahead Fokaslask and Basto. Ottoman won his 2nd Turkish League title. Basto and Coca Cola have promoted to Amiga Super League. Coca Cola will play first time in Super League. Basto was relegated in January to 2nd League. After one season he will try to stay in Super League. Basto: "In January I was in Super League and it was a great experience. Now I am again in Super League and I know how hard it is. I hope I can finish the league without relegation".
